GUIDE **GUIDE**

Indice Commercial

Canadien

2ème PARTIE

Commençant à la page 161, sur papier bleu, se trouvent les noms et les adresses des manufacturiers.

3ème PARTIE

Commençant à la page 285, se trouve une liste alphabétique des articles fabriqués au Canada, donnant les noms de toutes les maisons qui les fabriquent.

Le mot principal en Anglais est ordinairement placé le premier, suivi d'une phrase le modifiant, i.e., Quincaillerie, de construction: Cuir, coupe de bottines et chaussures. Mais, quand l'inversion ne semble pas faisable le mot modifiant est placé le premier, et est ainsi arrangé dans la liste alphabétique, i.e., Mécanisme de piano—Piano hammers; Shoe packs—Chaussures en cuir tanné à l'huile. En cas de doute on peut essayer les deux méthodes. Quand deux noms ou plus sont communément employés pour le même article, nous avons essayé de donner des explications vis-à-vis. Quand on desire l'adresse de la rue, voir la II'ème Partie, commençant à la page 161. Les noms des fabricants qui font ou sont intéressés dans le commerce d'exportation sont indiqué par un asterisque*.

4ème PARTIE

Commençant à la page 657. Section Spécial indiquant les noms des exportateurs principaux des produits de la ferme, etc.

5ème PARTIE

Commençant à la page 665 sur papier bleu. Section de Traduction—(a) Français, page 665. (b) Espagnol (édition limité), page 713. Les noms des articles donné dans l'Indice Français et Espagnol sont suivis par leur équivalent en anglais, et l'équivalent en anglais se trouve placé alphabétiquement dans la IIIème Partie.

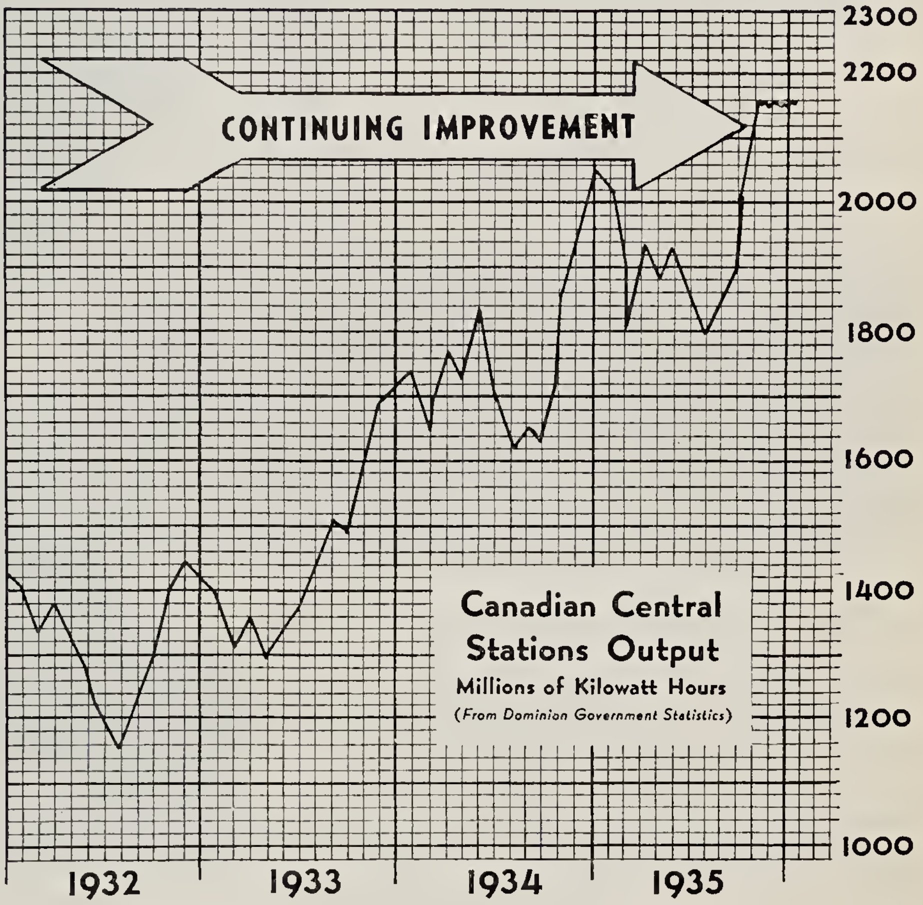
You can choose no better time than NOW to modernize electrically

..For ECONOMY
..EXPANSION
..PROFITS

Increased power output from central stations is considered to be a reliable indicator of business conditions. The output in 1935 exceeded that of 1934 by 11 per cent. Many organizations, in keeping with the brighter business outlook, are modernizing their present electrical equipment, while making plans for expansion to take care of increased trade.



Canadian Central Stations Output
Millions of Kilowatt Hours
(From Dominion Government Statistics)

● Industrial progress has resulted largely from remarkable improvements in equipment, methods and design. Therefore, it seems logical to seek increased earnings in the future, as in the past, from new, improved machinery and methods to meet changing conditions.

Now is the time to modernize your plant and this can be accomplished, profitably, a little at a time, with comparatively small outlay; *and in many cases the savings start with the first sound change.*

C-G-E sales engineers welcome an opportunity to discuss such matters with you and will gladly assist in solving your electrical modernization problems.

SERIOUS ROBBERY HALTED BY "SAVE-LITE" INTERIOR WALL ENAMEL

Efficient illumination is only about one-fifth part direct light; the balance consists of reflected light—from walls, ceiling, and other surfaces. Dingy walls and inferior wall finishes *absorb* instead of reflecting light. They rob you of valuable illumination and send up your light bills.

Sherwin-Williams SAVE-LITE Interior Wall Enamel halts this "robbery." Its brilliant whiteness reflects over 90% of the light that falls on it, with no glaring highlights. Moreover, unlike ordinary mill-whites, SAVE-LITE doesn't yellow with age; it *stays* white. Its hard, tile-like surface can be washed down again and again without injury.

How much of *your* light is being "stolen"? You can easily find out. Our expert paint engineers are each equipped with the "Sightmeter"* and will gladly make the test in any part of your plant, without obligation, of course.

Just let us know by mail or phone what time you would like our representative to call.

*THE "SIGHTMETER"

A marvellous, new, scientific instrument that tells accurately at a glance the efficiency of your lighting. As easy to read as a thermometer.

DO THESE PARKER POLICIES DESERVE YOUR SUPPORT?

1. Restricting the sale of our Advertised Vacumatic Line only to retailers who resell to consumers at locally established retail prices, allowing a large margin of profit.

2. Spending all available money for advertising the Primary line (Vacumatics) which produces the big profit for the dealer, and refusing to divert funds to advertise Secondary lines (Challenger and Parkette).

3. Backing Retailers with
   (a) Greater advertising support resulting in more Consumer Demand and Preference.
   (b) Higher Quality—More SATISFIED customers.

4. Giving Retailers the most simplified and the most complete pen line, thereby
   (a) REDUCING Investment and simplifying Stock Control
   (b) Making EVERY Parker number a LIVE, FAST-MOVING number
      1—Vacumatic—Oversize, $10.00; Standard $7.50; Junior $5.00
      2—Button Filler—Deluxe Challenger $3.50; Challenger $2.50
      3—Lever Filler—Deluxe Parkette $1.75; Parkette $1.25

5. Helping Retailers Sell and Service Pens and Pencils by
   (a) Assisting them in operating their pen department efficiently and profitably.
   (b) Supplying them with free sales material: Window and Store Displays, Attractive Circulars and Newspaper Cuts.

Parker regards the retailer as a partner, and treats him as a partner, knowing full well that the one—The Parker Pen Company—cannot be permanently successful unless the other—the Retailer—is successful.

If these policies appeal to you as a business man, write *now* to the Parker Fountain Pen Co., Ltd., 158 University Avenue, Toronto, Canada.
